CLOUDI

the newest Clou!

Cloudi is the youngest and most compact member of the Clou Family, yet it embodies everything that makes Clou special: an organic shape, the iconic round viewing window, and the lively dance of the flames.

It is made entirely of cast iron – solid, durable, and crafted with precision. The viewing window offers a clear view of the fire. The combustion chamber is lined with Keramott – a material specially developed by Austroflamm to ensure particularly clean combustion. Wooden elements add subtle, natural accents.

On top, an integrated cooking plate provides ample space for preparing food or heating beverages. Two side shelves can be attached or removed as needed – a practical extra for everyday use.

Cloudi fits perfectly into both modern and traditional living spaces – and remains unmistakable: a true Clou.

ICONIC DESIGN, INNOVATIVE TECHNOLOGY

Discover the Clou Family

With their oval body and iconic round door, Clou stoves are true eye-catchers. The large viewing window turns the flickering flames into a captivating experience. Whether wood-burning, pellet, or cooking and baking stoves – the Clou Family includes eight models that unite design, functionality, and innovative technology at the highest level.
